亞毅一光学空间艺术大师

“光之于空间，犹如声音之于时间，最善于表现其生命力。”

"Light is in space, just like sound is in time, and is best at expressing its vitality."

现代室内光艺术的本身并非仅仅是照明设计，依靠光传达设计师的理念并不仅仅是一个造型问题，设计师用光刻意打破了形状的概念，并模糊了作品与空间之间的轮廓界限，从而能从中体验一种全新的空间感。亞毅的灯饰设计并不只是单纯从作品出发，而是更多的考虑作品与空间最终的呈现效果。将作品置身于空间，并最终赋予更好的感官体验。

Art of modern indoor light is not just a lighting design. Relying on light to convey the idea Of the designer is not just a model. The designer broke the concept of shape and blur the contour boundary between the work and the space. YA-I lighting design is not only based on works, but also more on the final effect of works and space.Put your work in space and ultimately give you a better sensory experience.

Casting Light Into The Darkest Shadows  
Exploring A Different Future

对于旅行者来说，未知的森林是边界。  
对于探索者来说，浩瀚的宇宙是边界。  
对于光学艺术家来说，艺术与科学是光学的两端，是光学的边界。  
对于亞毅而言，探索光的未来形态意味着打破边界，融合创新成为常态。科学的理性与艺术的感性不再是对立两个极端，而是融合呈现，亞毅作品的一面将是科学，一面是艺术。光不再是一种严谨的照明设计，更是一种家居个性的美感表达。

For travelers, the unknown forest is the boundary.  
For explorers, the vast universe is the boundary.  
For optical artists, art and science are the two ends and the boundaries of optics.  
For YA-I lighting, exploring the future of light means breaking borders and integrating innovation. but merge and present. One side of the excellent works will be science and the other side will be art. Light is no longer a rigorous lighting design, but also an aesthetic expression of home personality.

Inspiration from nature is also a gift to the home space. Using a minimalist approach to interpret the art form of the pearl, here we present the lampshade in the form of a shell, using the light source of the circle to simulate the luster and beauty of the pearl. The shell has the beauty of golden section. And the soft texture of light is a kind of warmth and surprise to the space after the divergence and enlargement of the lampshade.

# Shadow

# Shadow

Inspired by the architectural design, the architect Andrew described his grand theatre program as "The Lake Pavilion". This is an ellipsoidal building situated in a nearly square large pool that forms the ultimate modern symmetrical aesthetics through the shadow of the water surface.

From the layered sense of metal and acrylic, the symmetrical structure is divided into two, which follows the minimalist design aesthetics. The light becomes the shadow of the lamp body, and the exquisite superb metal surface treatment process enables the overall effect to have the charm of light and shadow from gradual change to fusion.

# 倒影系列

Mirror

Mirror

American photographer Cody William Smith has created a series of beautiful images through specular reflection. The photographer uses a large round mirror buried in the soil or sand, and place it in different environments, including the sea or the desert. which uses the reflection of the mirror to give the viewer a multi-space image.

Inspired by this, we achieve another sense of balance by drawing in a way familiar to the public, giving the space a mirror that reflects bright light. The adjustable angle design also gives light more dynamic art.

## Meditation

## Meditation

Inspired by the object “Ladle” which has a sense of quiet ritual in Japan, it is used to clean the hands for the Japanese temple before the “hand wash”. With the warmth of the material, the simple shape and the quiet ritual, the light is endowed with the emotional connotation of quiet accompany.

Meditation Series is a combination of YA-I’s Optical Art and Japanese Material Aesthetics. It restores the shape of the ladle to the lamp holder, and the hand-held ladle flips the water to form a wonderful connection with the lamp holder and the halo. The cleaning ceremony before entering the temple endows the

静思系列作品是亞毅光学艺术与日本物朴美学的结合，将柄杓造型还原成灯头，手持柄杓翻转注水，与灯头倾泻光晕形成美妙连结，入寺前的清洁仪式，赋予灯光静思的禅学意味。

Cross-border cooperation brings new inspirations. The cross-border work from YA-I's co-designer Olivia, master of Nordic handmade ceramics, combines the installation art of ceramic flower ware and lighting art, and presents the effect by using quality acrylic in the selection of materials. The overall design has a more light texture. And the lines are also completed by hand. The collision of light and installation art deduces the multifaceted possibility of art.

## Rhyme Action

Inspired by Mondrian, it abandons the form. The rhythm of life, starting from the point, extends to the line, which has the feature of infinite extension. The rhythm of life is interpreted with point, line, surface and light.

When the design stays to think more carefully about the art, and at the same time to see the most ordinary things in life that don't seem to be worth looking at again. Once you start to stare at them, the world will regroup in front of your eyes, and it will be rich and colorful.

## Morning Glory

Inspired by morning glory, it outlines the shape of flower with extremely simple lines. It presents romance in a rational way. It is also a work suitable for DIY. It builds different artistic conception to the space in a haphazard fashion through different arrangement and combination. Simplicity can give a person more imagination space. A flower is called self-appreciation, while a mass of flowers is called a sea of flowers.

## 星环系列

宇宙拥有无限的美感与创作激情，星环就是其杰出的作品之一，由无数的冷冻气体和尘埃共同构成星环，不同的星环各有着不同的色彩。星环系列作品的设计灵感便来自于此，浩瀚的宇宙存在着最朴素的美学，而我们将其演绎成一种光源艺术。星环的扁平设计以及内嵌式光源带来一种极简的艺术魅力。

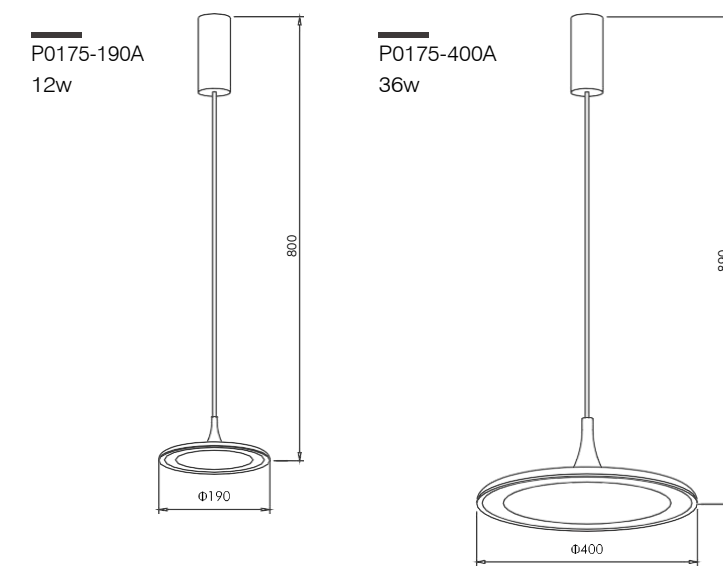

## Star Ring

The universe has unlimited beauty and creative passion. The Star Ring is one of its outstanding works. It consists of countless frozen gases and dust, and different star rings have different colors. The inspiration for the design of the Star Ring series comes from this. The vast universe has the most simple aesthetics, and we interpret it as a light source art. The flat design of the star ring and the inline light source bring a minimalist artistic appeal.

# Summer

The lines have an extended vitality. We use the minimalist lines to outline an abstract painting of the lotus. We use lines to show the vitality.

It can be imagined that the lotus and lotus leaves in early puberty are quietly welcoming the arrival of summer.

## 迎夏系列

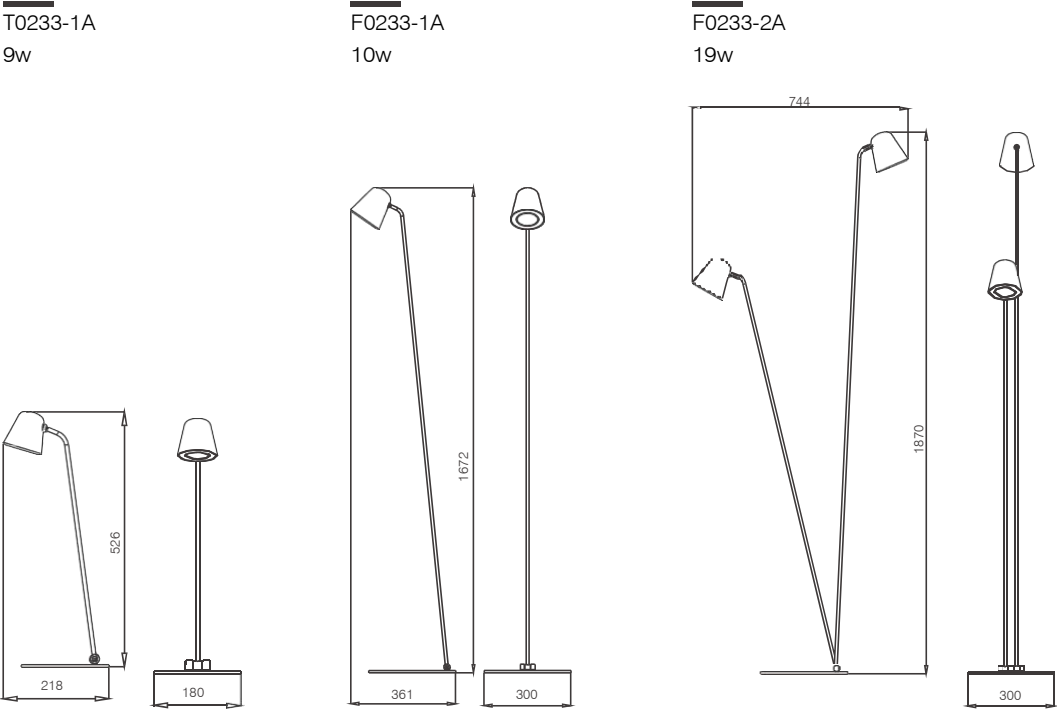

线条具有延伸的生命力，我们通过极简的线条来勾勒出一幅莲的抽象画，通过线条来展现旺盛的生命力，

可以想象成含苞待放的莲花和莲蓬静静迎着盛夏的到来。
